ABSTRACT

1	A fiber	optic con	nector used fo	r data co	mmunicati	on and teleco	mmuni	cation
applicat	ions is d	lisclosed.	A latch pull is t	used to de	couple the	fiber.optic com	nector f	from a
receptac	ele. The	latch pull	provides easie	r removal	of the fibe	r optic connec	tor than	n prio
art cor	nnector	removal	mechanisms,	thereby	enabling	high-density	fiber	optic
installat	ions.
